Villa Rockstar

Location: St Barthes, French West Indies
Price: €105,000 per week

This large, ultra-luxe villa, is being described as resembling 'a hundred million dollar yacht on land'. At circa 16,000sq ft, the considerable size of Villa Rockstar allows all of the world class facilities often associated with hi-end yachting – yet the villa suffers no bumpy seas – so it might well be ideal for people who bear the latter – in order to enjoy the former!

Villa Rockstar comprises of north and south houses connected by a courtyard and cloisters. The property is surrounded by 10ft walls and yet is built with a stout gate accessing directly onto a vast beach of soft pink/white coral sand and the diamond blue clarity of the warm ocean beyond.

Villa Rockstar incorporates interesting and sometimes quite 'edgy' contemporary design features. Built on three levels, the house includes four ultra-luxe suites equipped with a mixture of Italian stone baths, French stone floors and American hardwoods – and a collection of original art work. A master suite has an en suite and exquisite perfectly circular bathroom finished in hand-cut pure white gold. Two staff/ private cabins attach to Villa Rockstar making six bedrooms in total – so bring your own chef or other staff, if you wish.
